

Tantalos RZ

Continental

Blueleaf® is a trait that distinguishes some of Rijk Zwaan's cucumber varieties. This trait helps keep crops healthy through a combination of characteristics.

Description

Tantalos RZ is one of those varieties to stand out from the crowd. Not only does it produce exceptional quality fruit, it is one of the first varieties to combine the **blueleaf®** characteristics with the additional resistance to Cucumber Green Mottle Mosaic Virus (CGMMV), which provides growers with more tools for secure and sustainable production. Tantalos RZ is a market leader in South Eastern Australia.

Key features:

- Long fruited **blueleaf®** cucumber with good quality dark fruit
- Strong vigorous variety with a long production window
- Suitable for unheated production from spring to autumn

Resistances

HR CGMMV/Cca/Ccu/Px (ex Sf)

IR CMV/CVV

Sharing a healthy future

Rijk Zwaan's descriptions, illustrations, growing advices and any other information in whatever form for example on expiry, sowing, planting and harvesting dates are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan does not accept in any case liability for damages resulting from the use of such descriptions, illustrations, growing advices and information. The buyer/user itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. Inclusion of a variety in this edition does not automatically imply that such a variety is available for purposes of exploitation; it might be available for testing only. For more information, please contact Rijk Zwaan (www.rijkszwaan.com). The pictures in this edition show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.
