

# Lavender RZ

## Cauliflower

### Description

A tight spiral wrap neatly tucks in to protect the dense white curd of our new cauliflower variety, Aguera RZ. Its heavy weight and size is perfect for the fresh market. Aguera RZ has good vigour with a solid frame and its broad time slot means it can adapt to varying conditions. Performing well coming into and out of the cooler periods, Aguera RZ is fast, reaching maturity in about 85 days in autumn and 105-110 in winter and early spring.

### Key features:

- Tight spiral wrap and solid frame
- Dense strong white curd
- 85 – 110 day maturity

## Sharing a healthy future

Rijk Zwaan's descriptions, illustrations, growing advices and any other information in whatever form for example on expiry, sowing, planting and harvesting dates are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan does not accept in any case liability for damages resulting from the use of such descriptions, illustrations, growing advices and information. The buyer/user itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. Inclusion of a variety in this edition does not automatically imply that such a variety is available for purposes of exploitation; it might be available for testing only. For more information, please contact Rijk Zwaan ([www.rijkszwaan.com](http://www.rijkszwaan.com)). The pictures in this edition show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.
