

# Guapan RZ

Green slicer

**Blueleaf®** is a trait that distinguishes some of Rijk Zwaan's cucumber varieties. This trait helps keep crops healthy through a combination of characteristics.

## Description

Guapan is a slicer cucumber with long, well-filled fruits that have a dark skin and medium spines. The variety has the **blueleaf®** trait meaning it has the capacity to produce healthier and more productive crops. Recommended for testing all year round.

## Key features:

- High quality, high yielding variety for unheated greenhouse production
- Well-filled fruits with an attractive dark colour
- Strong crop with **blueleaf®** trait

## Resistances

**HR** Ccu/Px (ex Sf)

**IR** CMV/CVV

## Sharing a healthy future

Rijk Zwaan's descriptions, illustrations, growing advices and any other information in whatever form for example on expiry, sowing, planting and harvesting dates are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan does not accept in any case liability for damages resulting from the use of such descriptions, illustrations, growing advices and information. The buyer/user itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. Inclusion of a variety in this edition does not automatically imply that such a variety is available for purposes of exploitation; it might be available for testing only. For more information, please contact Rijk Zwaan ([www.rijkszwaan.com](http://www.rijkszwaan.com)). The pictures in this edition show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.
