

# Ticarinas RZ Knox™

Iceberg

## Description

Ticarinas RZ Knox™ is a new warm season large framed Iceberg that is ready for trialling, best suited from summer to autumn in southern Australian districts and shoulder season in milder areas like Perth and Queensland.

This variety benefits from Knox™, a naturally occurring trait that delays the pinking of cut leaf surfaces to offer improved shelf life. Ticarinas RZ Knox™ is suited for both the processing sector and for the fresh market.

## Key features:

- Benefits of Knox™
- Warm season variety
- For processing and fresh market
- Nice large frame

## Resistances

**HR** Bl:16-26,32EU/Nr:0

**IR** LMV:1

## Sharing a healthy future

Rijk Zwaan's descriptions, illustrations, growing advices and any other information in whatever form for example on expiry, sowing, planting and harvesting dates are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan does not accept in any case liability for damages resulting from the use of such descriptions, illustrations, growing advices and information. The buyer/user itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. Inclusion of a variety in this edition does not automatically imply that such a variety is available for purposes of exploitation; it might be available for testing only. For more information, please contact Rijk Zwaan ([www.rijkszwaan.com](http://www.rijkszwaan.com)). The pictures in this edition show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.
