

Tigrinho RZ

Watermelon

Description

Producing high yields of fruit that are excellent to eat, Tigrinho has firm and crisp red flesh, a sweet flavour, and micro seeds that can hardly be noticed. Flowering and fruit set are prolific, giving excellent yield potential, and because the vine keeps flowering over an extended period Tigrinho performs excellently as a pollinator for seedless watermelon crops.

Key features:

- Micro-seeded tiger striped watermelon, afw 2-3kg
- High yield potential
- Well suited to fresh market with sweet crisp flesh and a good flavour
- Excellent pollinator due to prolific and extended flowering

Sharing a healthy future

Rijk Zwaan's descriptions, illustrations, growing advices and any other information in whatever form for example on expiry, sowing, planting and harvesting dates are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan does not accept in any case liability for damages resulting from the use of such descriptions, illustrations, growing advices and information. The buyer/user itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. Inclusion of a variety in this edition does not automatically imply that such a variety is available for purposes of exploitation; it might be available for testing only. For more information, please contact Rijk Zwaan (www.rijkszwaan.com). The pictures in this edition show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.
